- If I encounter any problem with the Kindle, I will return the Kindle to the Library immediately.

I. CHECK OUT PROCEDURES

When checking out a Kindle:

- Verify that patron's account information is current
- Complete the user agreement form—record the patron's driver's license/ID number, review user guidelines, and have patron sign form
- Verify and confirm that the unit is functional
- Check that the unit is de-registered/deactivated
- Check that wireless is OFF
- Give patron a basic orientation and/or assistance with using the Kindle as needed

II. CHECK IN PROCEDURES

When checking in a Kindle:

- While the patron is present, turn on the unit and confirm that it operates
- If the Kindle does not function properly or appears damaged, follow procedures on handling damaged material
- Verify that all parts are accounted for, including the charger/adapter
- If an accessory is missing, do not check in the item
- If Kindle is in proper working order, check in the item
- Perform staff maintenance:
 - Sync for new titles
 - De-register/deactivate the device
 - Turn off wireless
 - Charge the Kindle

III. COLLECTION DEVELOPMENT

A. Initial purchase of six Kindles, one for each of the following genres:

- 1) Fiction
- 2) Mystery/Suspense
- 3) Romance
- 4) Young Adult
- 5) Science Fiction
- 6) Christian Fiction/Gentle Reads

B. Patron requests will be filled at Library Director's discretion.

C. Patrons will request Kindle titles the same way they request print titles, by filling out a Purchase Request Form.

IV. ACQUISITIONS

A. Content for the Kindle will be selected and purchased through the Library's usual acquisitions process.

B. The only time the Library's account should be activated on the Kindle is for purchasing and downloading content. The Kindle account should be de-registered/deactivated at all other times, especially when the Kindle is out on loan, to ensure patrons cannot download content and charge it to the library's account.

V. CATALOGING

The Kindle should be cataloged in such a way that patrons can conduct an easy title or author search. Search results should then indicate the various formats in which the title is available for check out (ex., book, audiobook, Kindle).

Technical Services should decide the most effective way to catalog materials.
