Book Title: The Fault In Our Stars

Author: John Green

Rating: 10/10

This book is sooooo good! I couldn't put it down. This book is about a girl named Hazel who has terminal cancer, but one day at her support group she meets a boy named Augustus Waters. Once he enters her life, it gets completely flipped upside down. It's full of love, comedy, and of course tragedy. I love reading and I've read a lot of books, but I have never read a book that's anything like this. It's one of a kind and it would be a shame to miss out on reading it. I give this book a huge 10/10!
